

Sodium Hexametaphosphate for Industrial Use

Molecular formula: $(\text{NaPO}_3)_n$

No. Of standard: HG/T 2519-2007

Item	Specifications
Phosphorus pentoxide(P_2O_5), % \geq	68.0
Inactive phosphate(P_2O_5), % \leq	7.5
Water insoluble, % \leq	0.04
pH(10g/L)	5.8~7.0
Solubility	Pass
Appearance	White Powder

Uses: Mainly used as water-treatment agent, bonding agent, floatation agent, dispersant and so on.
